

Green Clean (UK) Ltd

Commercial Bin Cleaning Equipment

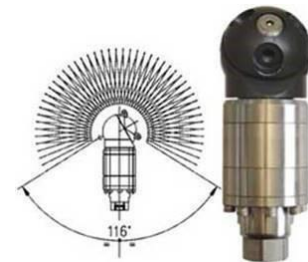

Duplex Static

The "Duplex Static" is a steel frame mounted Bin Washer designed for the cleaning of commercial 2 or 4 wheeled bins. This unit will provide the operator with the means to achieve a high rate of productivity, whilst ensuring compliance with the Environment Agency (EA) and Water Authority regulations. These bin washers have the capability of cleaning two 120, 240 or 360 litre wheelie bins at once or any plastic / metal 4 wheeled bin. The Duplex Static offers the options of fully recycling all of the water used in the bin cleaning process or to run continuous fresh water. The static unit can be powered by a Honda engine or connected to 3 phase electricity.

Specifications:

- ✓ Tank capacity: 440 - 600 L
- ✓ High-pressure wash heads: 30L/min 3500 psi
- ✓ High-pressure hand lance: 30L/min 3500 psi
- ✓ Multi-stage filtration: 300 microns
